PROCEEDINGS

1 make problems for us, which we would try to avoid,
2 because when we come in for a reasonable use of the
3 property -- we understand, everybody understands,
4 this is my 40th year of standing in front of boards,
5 everybody understands that independent engineers,
6 independent engineers such as Mr. Corless,
7 independent traffic consultants, independent
8 drainage, the county drainage agency, everything
9 must be one hundred percent satisfactory to
10 independent professionals, so when we hear about
11 water and drainage and traffic, and all these sorts
12 of problems, I think they are just cover ups for the
13 real reason, which is to deny this religious use of
14 the property, which is not even proposed yet.

15 I would respectfully request that, at the
16 appropriate time, that I'd be willing to sit down
17 with the mayor, with any committee, and actually
18 discuss the proposed use of the property that makes
19 sense to the village, and it makes sense to us.

20 Now I've delivered a letter -- lastly, I'm
21 done -- I've just delivered a letter to Mrs. Ulman,
22 saying exactly what I just said, that we are
23 prepared to discuss the property, in legitimate
24 purposes and concerns of the village, and
25 Mr. Sanderson, thank you for allowing me to finish.
